

Serial No. 09/542,743Docket No. P1640US00REMARKS

Consideration of and favorable action on this amendment under 37 CFR 1.312 is respectfully requested.

The Notice of Allowance in this patent application included an Examiner's Amendment that included a rewriting of the claims of the application. It appears that in claims 6 and 18, the dependencies were intended to be changed to claims 1 and 13, respectively, which were added to the claims, but the previous claim number were not removed, so that the claims recited "in claim 5 1" in claim 6 and "in claim 17 13" in claim 18.

The above amendment removes the extra claim number "5" and "17", respectively from claims 6 and 18.

CONCLUSION

In light of the foregoing remarks, early consideration and entry of the above amendment to the application are most courteously solicited.

Respectfully submitted,
